NZX Market Announcement

Aorere share purchase plan closes today

The Board of Aorere Resources wishes to thank those shareholders who have already subscribed for shares under our share purchase plan offer and also give a reminder to those who have not yet done so that the issue closes today.

To allow for postal delays, late subscriptions will be accepted until 5pm on Wednesday 19 June. **However, shareholders are recommended to email rather than post in application forms.**

The minimum amount that can be subscribed is \$800, with one million shares costing \$800, two million \$1,600 and so on. Applications for more than 2 million shares will be accepted but may be subject to scaling.

The issue price of \$0.0008 per share under the share purchase plan is a discount of 20% to recent on-market trades of \$0.001.

Please email or call me if you have mislaid your offer documents and need another set.
